

LEVEL 5 Primer/Surfacers-100% Acrylic

Level 5 Finish with Plast It!® or Plast it!® PLUS

Litex's Plast-It!® and Plast-It!® PLUS Level 5 Primer/Surfacers achieve luxuriously smooth walls and ceilings in a single airless spray application. It is the quickest and lowest cost way to skim coat and prime a surface. Using Plast-It!® and Plast-It!® PLUS with a 100% acrylic formulation will add a durable and protective layer to drywall, eliminate unsightly joint flashing and hide minor surface imperfections while achieving a level 5 drywall finish. It properly prepares the surface for finish coats or can be left as a white finish for ceilings.

Plast-It!® and Plast-It!® PLUS Level 5 Primer/Surfacers are formulated with the toughest Ph tolerant waterbased 100% acrylic resins making them ideal for application over new interior drywall, concrete and plaster substrates.

Plast-It!® Standard Formula

- Plast-It!® Item #4865
- Sands Easily When Necessary
- Economically Priced
- Residential & Commercial Projects

Plast-It!® PLUS **NEW** Extra Abuse Resistant

- Plast-It!® PLUS Item #4965
