

ProGrade® Ready-Mix Texture

ProGrade® Ready-Mix Texture (Item# 1035)

BETTER THAN JOINT COMPOUND! This acrylic, interior texture coating is used to create a wide variety of texture finishes on wall and ceiling applications. This ready-mix texture will provide a more consistent, better looking finish than joint-compound in spray or roll-on applications.

- Replaces Drywall Mud “Texture” Applications
- Ideal for Residential and Light Commercial
- Non-Aggregate, Acrylic Based Interior Wall and Ceiling Texture
- Consistent Thickness
- Less Jobsite Mixing
- Ready-Mix in 5 Gallon Pails
- Use to Create Knockdown, Orange Peel and Splatter Finishes
- LEED Compliant: VOC <50g/l
- Water Based and Non-Toxic
- Mold & Mildew Resistant
- Easier on Spray Machines
- Spray or Roll Apply to Bare Drywall, Plaster or Concrete

Basic Instructions for Use:

Apply a texture coating as per manufacturer’s instructions in a splatter, orange-peel or knockdown application. Can be spray or roll applied to bare drywall, plaster or concrete. Prime and paint after dry (2 - 6 hours).

Coverage Rate:

Light Application – up to 200 sq. ft. per gallon
Heavy Application – up to 125 sq. ft per gallon

For a premium 100% acrylic, tintable texture, check out “Litex’s Commercial Texture Systems” which provide remarkable abuse-resistance and come with a ‘5 year warranty’ against mold mildew and algae. Ideal for hotels!!
