

## Satin-Tex® Interior Finish (Item# 4015)

A durable, acrylic interior water based, flexible non-aggregate textured coating. Designed for application on interior drywall, masonry and other properly prepared surfaces where mold/mildew resistance, abuse resistance and a decorative satin finish is desired.

# Orange Peel, Knockdown & Splatter Finishes

### **BASIC INSTRUCTIONS:**

Apply a full coverage BASECOAT application using an airless machine as per manufacturer's instructions. Once dry, use an air-assisted (hopper gun) machine to apply the TOPCOAT in a splatter, orange-peel or knockdown application. Can be spray or roll applied to bare drywall, plaster or concrete. Refer to Datasheet and MSDS for detailed application information.

### **COVERAGE RATE:**

#### **BASECOAT:**

Up to 125 square feet per gallon (100% Coverage)

#### **TOPCOAT:**

*Splatter or Knockdown:* Up to 125 ft<sup>2</sup> / gal.

*Orange Peel:* Up to 150 ft<sup>2</sup> / gal.
